Education

Rajkiya Engineering College Sonbhadra
B.Tech in Electrical Engineering

Batch: 2024
CGPA: 8.03

Experience

Goloka IT Pvt. Ltd.

Dec 2023 - Present

Frontend Development Intern

- Immersed in **Next.js** and **Tailwind** for creating a complete website of Clients and working as a **front-end developer** in ongoing projects.
- Developed and contributed to **3+** real-world projects utilizing **React.js**, **Tailwind CSS** focusing on creating **responsive**, interactive user interfaces.
- Collaborated within a **team environment** to troubleshoot issues, write clean and **efficient** code, and meet project deadlines.
- Demonstrated agility approach in **learning new technologies** while actively contributing to project success.

CodeClause Pvt. Ltd.

May 2023 - July 2023

Web Development Intern

- Drafted clean and modern websites as MUI Login-SignUp page using **React**, **HTML**, **CSS** and **JavaScript**.
- Built **2+** projects with **responsive** and interactive user interfaces and engaging user experience
- Improved website performance and view-through **Material UI** techniques and increased efficiency by **20%**.

Technical Skills

Languages: JavaScript, C++

Libraries/Frameworks: React.js, Next.js, Node.js, Express.js, Material UI

Web Technologies: HTML, CSS, JavaScript, Tailwind CSS, Bootstrap

Database: MongoDB, SQL

Technical Concepts: Data Structure and Algorithm, Object-Oriented Programming

Personal Projects

MERN Quiz - Brain Teaser | *React.js, Node.js, Express.js, MongoDB, Redux*

[Live](#)

- GitHub Link:** <https://github.com/RajanPandey1311/Brain-Teaser>
- Cultivated a cutting-edge **MERN** stack quiz application, integrating user interface and Redux for data management.
- Utilized **React hooks**, **MongoDB**, **Express.js**, **Node.js**, and **Redux** to ensure seamless user experience and enhanced productivity by **20%**.

E-Commerce - WanderWish | *React.js, React Hooks, Email.js, Framer Motion*

[Live](#)

- GitHub Link:** https://github.com/RajanPandey1311/Ecommerce_WebApp
- Designed a cutting-edge **E-Commerce** web application using **React.js**, featuring product categorization, Login page.
- Implemented a variety of **hooks**, such as **useContext** for global state management, **useState** for robust component rendering, and **props** to transfer data between parent and child component resulting the **code reusability**.
- Integrated user-friendly **navigation and search functionalities** hence increases searching, and filtering speed by **40%**.

My NPM package | *Node.js, JavaScript, NPM, GitHub*

[Live](#)

- GitHub Link:** https://github.com/RajanPandey1311/rajan_npm_package
- Created a **npm package** designed to be easily integrated into applications enhancing code **reusability** by **30%** allowing a **random quote generating** feature to be incorporated with just a few lines of code.
- Leveraged **Node.js** and **modern JavaScript** techniques, to create a package that is crafted to be lightweight, efficient.
- Published the package on **NPM** for easy installation via '**npm i rajan-random-quote**' command.

Achievements/Certification

- IBM Certified Front-End Developer
- Udemy Certified: C++ Programmer
- Solved **300+** **DSA** questions across multiple coding platforms like **GeeksForGeeks** , **Leetcode** etc.
